[APA-Style Helper 5.1](#)

**Price:** \$34.95

Add to Cart

Designed to provide fingertip guidance in APA style for a single user installation, this program gives clear and straightforward help on how to format references, headings, and more. The program has been updated to conform to the latest standards detailed in the fifth edition of the Publication Manual of the American Psychological Association.

Version 5.1 provides you with new organizational and help features, enhanced text processing capabilities, and step-by-step assistance in the creation of your document. It also provides you with a consistent work environment – your word processor. The new design eliminates the need to import your document into Microsoft Word, as previous versions required, saving you time and effort.

Optimal Data Analysis offers the only statistical analysis paradigm that maximizes (weighted) predictive accuracy. This unique book fully explains this paradigm and includes simple-to-use software that empowers a universe of associated analyses. For any specific sample and exploratory or confirmatory hypothesis, optimal data analysis (ODA) identifies the statistical model that yields maximum predictive accuracy, assesses the exact Type I error rate, and evaluates potential cross-generalizability. No other software can accomplish analyses possible via ODA. The book contains numerous examples that simply could not be solved by any statistical method except for ODA.

**Option #1 – Cart Transition**

Any time a user selects “Add to Cart”, the cart summary box above appears. The cart summary will display the most recent item added to the cart along with the cart subtotal and number of items in the cart. The “Proceed to Checkout” button will take users to the Shopping Cart page where they can review their order. The “Continue Shopping” link will keep users on the current page. Users can also access the Shopping Cart page by clicking on the “Cart(x)” link in the header.

Checkout

Option #1 – Cart transition (in cart)

When the user clicks the “Proceed to Checkout” button on the cart transition, they will be taken to the Shopping cart to review their order.

C1 Page title

The page title has been changed from “Shopping Cart” to “Review your order.”

C2 “Continue Shopping” link

A “Continue Shopping” link will be added to the left of the “Checkout” button. This link will take users to the page they were visiting before they landed on the Cart page (the page where they clicked “Add to Cart”).

C3 “Continue Shopping” right rail box

The heading for the “Continue Shopping” right rail box has been changed to “Shop for APA Products”.
